

Dear {PRENOM},

It has been a very unpredictable and challenging time for most of us. We tried to follow our aims in terms of setting several milestones for WAVE.

We are happy to share with you the following news:

WAVE virtual workshop in Ukraine - September 14-18

In the frame of the EACS new educational programme EACS Live! WAVE will have its workshop in Ukraine, originally planned to be held in Odessa, organized online. There will be partially pre-recorded content available on demand, but we are aiming at interaction and networking, setting new boundaries of what is possible in a virtual environment.

We invite you all to attend this unique event and to connect – the registration is free!

The programme and registration platform will be available from September 1.

WAVE Joint Session at virtual HIV Glasgow - October 7, 4PM-5 PM CEST

WAVE was invited to have another joint session at HIV Glasgow. The topics we have chosen for this year are

***Women with HIV: Key clinical issues from menopause onwards
90:90:90 Are the Differences Between Women and Men Changing?***

More information on the WAVE session programme will be soon published on the EACS website. We encourage you to attend virtually our session – please go to the HIV Glasgow website for registration (fee applies).

<http://www.hivglasgow.org/>

We are moving forward!

WAVE's groups leaders have prepared the activity goals:

Combination Prevention (formerly HIV Testing and Prevention including PrEP)

Advocating for an online site for women – PrEP and STI

To create an assessment tool for MDs of different specialities by defining the epidemiological profile and/or specific circumstances of women more at risk of acquiring HIV.

Co-infections and co-morbidities

Discussion and overview on non-adherence and cardiovascular and/or metabolic risk factors in menopause age to decide on needed research and/or audits in the frame of the standard of care to define the best procedures.

All WAVE members who expressed their interest in these particular topics will soon receive e-mails with more detailed information.

We would appreciate you to get actively involved in this work!

How to get involved

Please contact us at WaveSecretariat@eacsociety.org

Follow EACS on **social media** (FB, Twitter) where WAVE related news are also posted!

The next WAVE Newsletter will be sent in November 2020.

Best wishes,

Karoline Aebi-Popp and Yvonne Gileece
