

Dear {PRENOM},

Despite COVID-19, WAVE is active. Since our last Newsletter (July) we have been involved in:

WAVE Joint Session at virtual HIV Glasgow - 7 October, 4 PM - 5 PM CEST

WAVE participated in a joint session at HIV Glasgow. The topics we have chosen for this year are

90:90:90 Are the Differences Between Women and Men Changing?

Key questions in WLWHIV and ageing: menopause and frailty management in clinical practice

Please visit our [website](#) for details.

WAVE virtual workshop in Ukraine - 14-18 September

In the frame of the EACS new educational programme EACS Live! WAVE has organised its online workshop in Ukraine. To see the programme and the presentations, please visit our [website](#).

WAVE's groups activity

Combination Prevention

An online meeting took place with possible partners (NAM, AVAC, Sophia Forum) to discuss a collaboration to achieve the two goals: advocating for an online site about PrEP for women and helping to define criteria in order to identify women who would benefit from taking PrEP.

Supported breastfeeding

An online meeting took place to set up the next steps: a possibility of a European data collection is being considered (organisation, technicalities, funding). We will ask you to indicate the contact person(s) in your country to participate in our study.

How to get involved

Please contact us at WaveSecretariat [at] eacsociety.org

Follow EACS on social media (FB, Twitter) where WAVE related news are also posted. The next WAVE Newsletter will be sent in March 2021, featuring our plans for 2021.

Best wishes,

Karoline Aebi-Popp and Yvonne Gillece
